

NEWSLETTER

In the wake of the Los Angeles wildfires, the City of Los Angeles Emergency Management Department (EMD) stands with the families who have suffered immense losses, the brave responders who risked their lives, and the entire community that is working together to rebuild. During this challenging time of recovery, it is important to remain resilient.

WILDFIRE AWARENESS MONTH

WILDFIRE AWARENESS

Wildfires are unplanned fires that burn in areas like forests, grasslands, prairies, and also in areas with dry brush or heavy vegetation. These dangerous fires spread quickly and can devastate not only natural areas but also communities, where weather conditions often determine how much they grow.

RETURNING HOME AFTER A FIRE

- Pay attention to warnings and alerts
- Re-enter only when authorities say it is safe to do so
- Wear protective clothing when cleaning
- Inventory and document damage with photographs

PERSONAL & FAMILY COMMUNICATIONS PLANNING

Along with your Emergency Plan, having a section that spells out how you will communicate with family and friends is important.

- Keep a list of emergency contacts, have contacts for in-state and out-of-state
- Set up group text(s) in your phone
- Use social media to share your status
- Discuss your plan(s) with family and neighbors
- Practice your plan(s)
