Boyle Heights Unified Recovery Command Report

Sunday, July 5, 2026

Context

This public status report covers the time period of Tuesday, June 30, 2026 through Saturday, July 4, 2026. Immediate incident response actions, including a shelter-in-place order and related alerts, clean-air shelters, early mask and air purifier distribution out of Boyle Heights City Hall coordinated by Council District 14 and the Mayor's Office are not included in this report. The report focuses on recovery coordination efforts by the Boyle Heights Unified Recovery Command for the specified time period.

Incident Status

On June 24, 2026, the Los Angeles Fire Department (LAFD) declared that the warehouse fire in Boyle Heights was knocked down. Thereafter, LAFD, the LA City Department of Sanitation, the LA City Department of Transportation and the LA City Department of Water and Power have maintained resources on-site to monitor the activities of the private entities to ensure fire flare-ups are contained, to monitor water quality and ensure protection of storm drains, and to ensure traffic safety. These resources will continue to remain on scene for as long as necessary for public safety. Other city, county, state, and federal agencies continue to monitor and test site conditions.

Recovery Coordination

Beginning on Thursday, June 25, the City of Los Angeles Emergency Management Department began convening formal meetings of city, county, and state agencies, and private entities to streamline operations and ensure coordinated information sharing regarding the removal of fire debris, disposal of food waste and neighborhood safety issues – including air quality monitoring and testing, water quality monitoring and testing, odor mitigation, vector control, haul routes, and traffic control. In accordance with the Mayor's June 29 Emergency Executive Order #2, this daily meeting was organized under the Boyle Heights Unified Recovery Command (BHURC) structure on Tuesday, June 30, under the leadership of Deputy Mayor for Public Safety Sue Stengel. The BHURC has continued and will continue to meet daily.

Daily cooperators meetings organized by LAFD bring together City entities, regulatory agencies and private entities to ensure that all required permits and reviews related to remediation and debris removal from the warehouse occur. Participating entities are listed in Attachment A. Additionally, numerous site visits by various governmental agencies have occurred to ensure oversight and compliance with warehouse remediation efforts.

In accordance with the National Disaster Recovery Framework (NDRF), the Boyle Heights Unified Recovery Command will officially implement a Recovery Support Function (RSF) framework to provide a structured approach to supporting the impacts of the fire, beginning the week of Monday, July 6.

Community Support Operations

A Community Resource Center (CRC) opened Saturday, June 26 at the Costello Recreation Center (3141 E. Olympic) to support residents and businesses impacted by the Boyle Heights structure fire. The CRC serves as a convenient, centralized location to provide recovery information, assistance, services, and referrals from government agencies and community organizations. The number of individuals and households served can be found in Attachment B.

The current and anticipated hours of operation are:

- Thursday, July 2 - Friday, July 3, 10:00 AM - 5:00 PM
- Saturday, July 4, 10:00 AM - 2:00 PM
- Sunday, July 5, CLOSED
- Monday, July 6 to Friday, July 10, 10:00 AM - 5:00 PM

The Pecan Recreation Center (145 S. Pecan St.) continues to serve as a Relief Center from 10:00 AM - 5:00 PM daily, until further notice.

A City of Los Angeles Boyle Heights Recovery Updates website has been established for the impacted residents and business owners to receive timely information, find aggregated community resources, and links to data and resources from both private entities and governmental agencies
